IP440

A New Classic

The 440 combines the superior comfort, ease of use and seakeeping and safety attributes that are the hallmark of every Island Packet Yacht along with the stunning good looks of its classic design. You'll be turning heads (and sailing past other yachts) all around the world. This world cruiser is capable of long distance days.

The interior layout of the 440 makes it perfect for the couple that wants a family retreat or live aboard. Both cabins feature island berths so that neither of you wake the other when getting out of bed. A long list of other interior amenities put this yacht in a class by itself. From the stainless steel ports to the protected prop and rudder, every detail on the Island Packet 440 reinforces our dedication to raising the benchmark for cruising sailors.

This aft cockpit design, and its predecessors, have been among the favorite Island Packets ever built. The geared rack and pinion steering system, proven through millions of miles of all types of cruising, provides sensitive and responsive control with rugged reliability and a minimum of maintenance.

Specifications are approximate and subject to change without notice. Some optional equipment shown.

The interior of the 440 will easily accommodate a cruising lifestyle for the sailing couple. As you descend the companionway ladder, you'll enjoy the open saloon with full length settees both to port and to starboard. If the two staterooms aren't enough, the starboard side settee extends towards the centerline to make a very comfortable double berth, and both settees can double as seaberths.

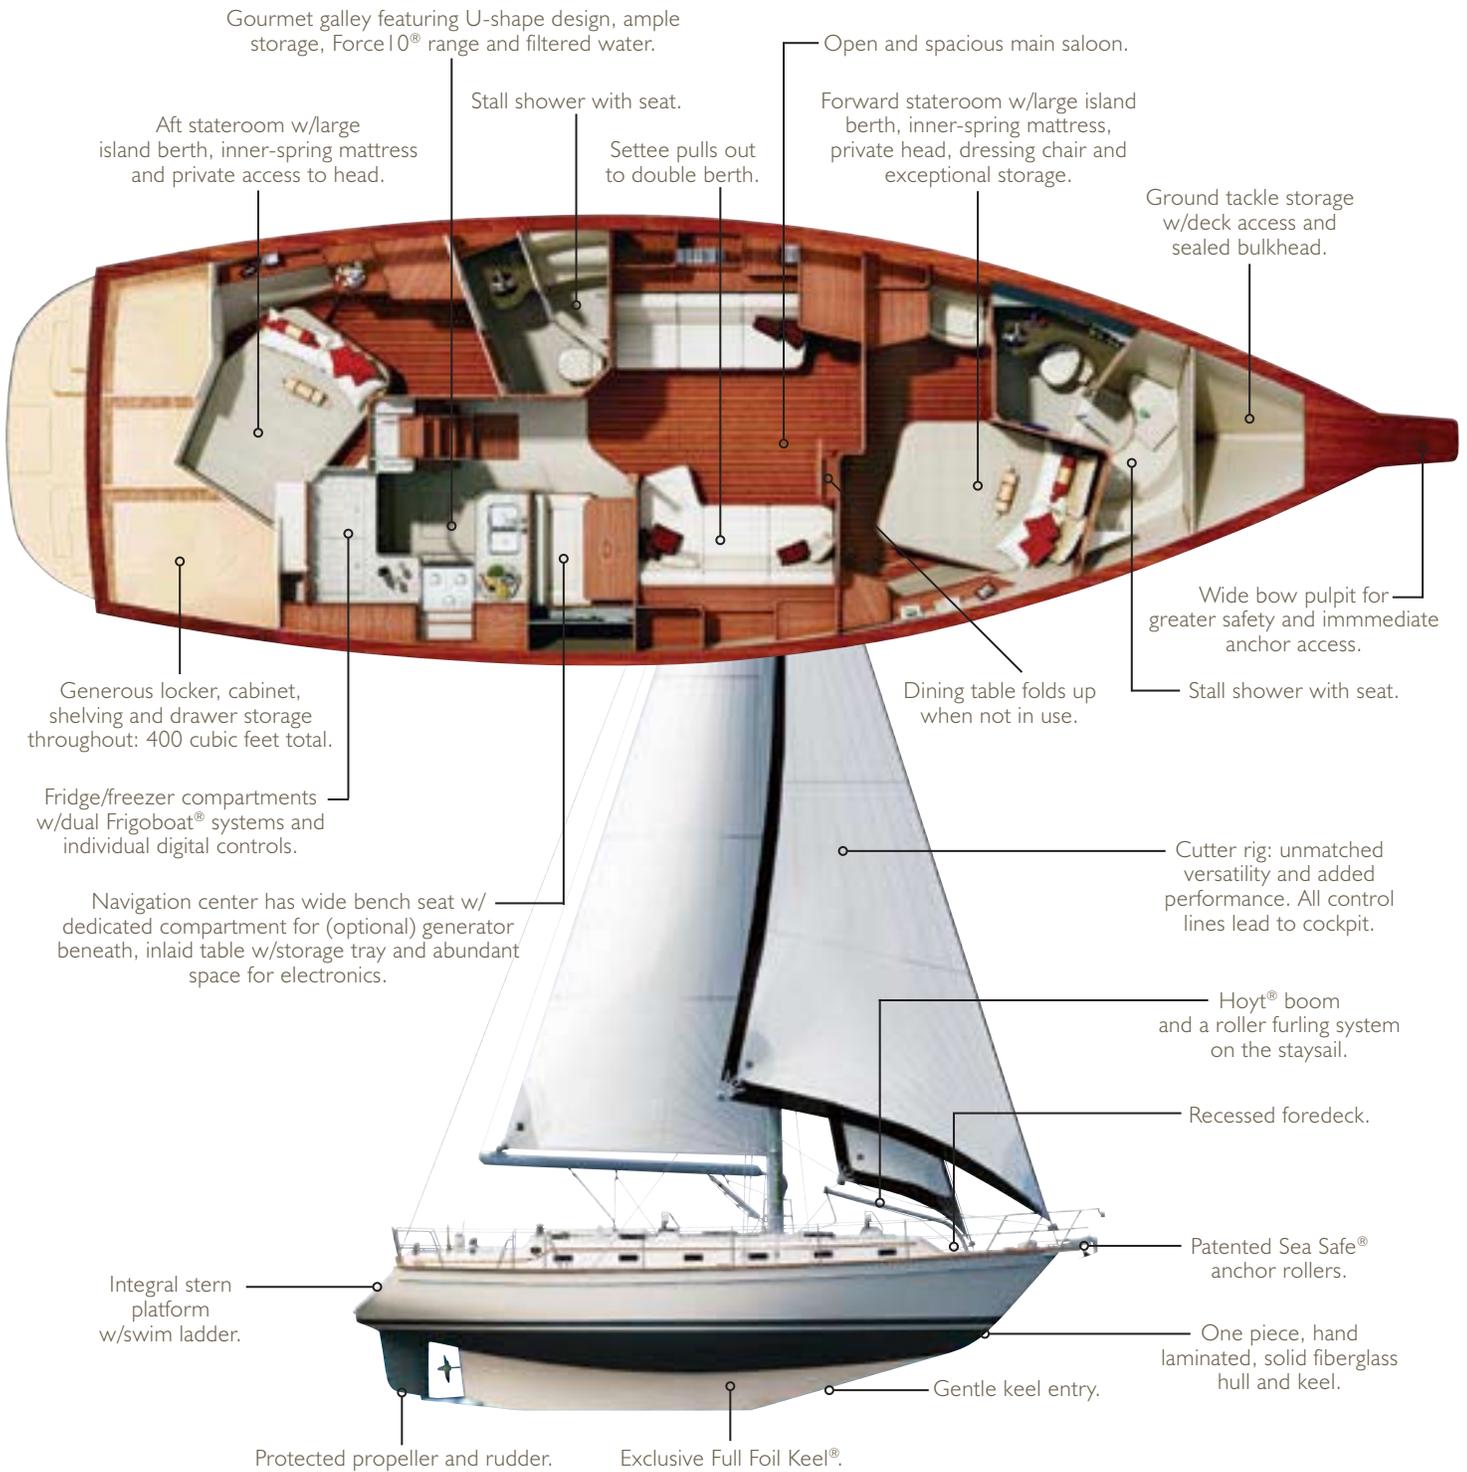

The forward owner's stateroom spans the beam of the yacht and includes a generously sized offset island berth with access from both sides. The berth is hinged and can be raised (with the help of gas support struts) to reveal a large blanket tray. Ample storage is provided and a private head with a large stall shower is located adjacent to the stateroom.

The aft guest stateroom also features an offset double island berth. A large hanging locker with extra height rods outboard, and an array of cabinets, bins and shelves, make this cabin suitable for extended stays on board. As in the owner's stateroom, the berth top hinges on gas support struts to reveal a large blanket tray.

The gourmet galley employs a generous wrap-around solid acrylic counter over teak cabinetry and an open layout with room to move comfortably. The well insulated and lighted fridge and freezer compartments feature an insulated divider, digitally controlled cooling units and double gasketed lids on gas support struts for easy access. Either compartment may be used for refrigerated or frozen storage at the setting of the control. Other features of the 440 galley include a Force 10[®] LPG range with broiler, a water purifying system serving all interior cold water sink taps, built-in dish racks, cutlery drawers, deep double sinks, a slide-out trash bin, a strategically placed stainless microwave and abundant cabinet and locker storage.

The 440 includes two spacious heads. Both heads feature vanities with solid acrylic countertops, separate shower stalls with seats, folding acrylic doors and standard VacuFlush[®] heads.

The uncluttered deck of the 440 is big enough to handle a full crew, yet the cutter rig and sail plan are completely manageable by a shorthanded crew. And all sail control lines lead to the cockpit.

Since 1979, Island Packet has become a worldwide benchmark for cruising sailboats. With an aggregate log of millions of miles of cruising in all environments, from protected coastal waters to circumnavigations—along with an unsurpassed record of customer satisfaction and award winning factory and dealer support—it's no wonder Island Packet Yachts is *America's Cruising Yacht Leader*.SM
